Y NO.

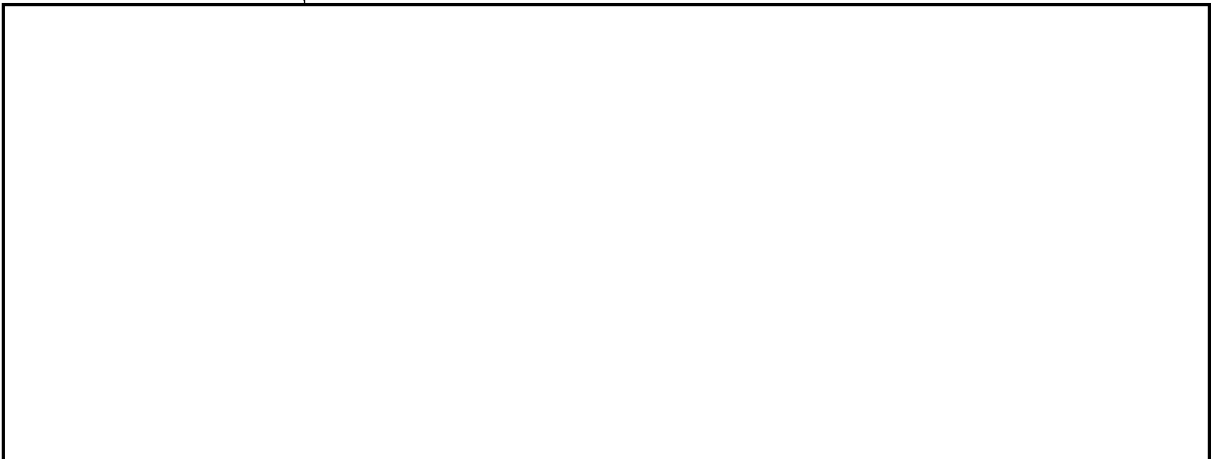

26 April 1952

MEMORANDUM FOR: Mr. Dulles

SUBJECT: NSC - Responsibilities of the Agency

1. [] has requested me to prepare for you a memorandum detailing the responsibilities of the Agency and the state of performance in respect of NSC 29.

2. As a means of carrying out its coordinating responsibilities on this project the State Department established a special interagency committee which determines the strategically important industrial operations in foreign countries which should be protected from the point of view of our national security. OHR has been the Agency representative on that committee, but OHR's participation has been only to bring to bear such intelligence as it has which would contribute to the selection of the strategically important targets. OHR has not been requested to produce research studies specifically in response to requests of this special committee.

NSC - 29

MEMORANDUM FOR: Deputy Director (Intelligence)

SUBJECT: Proposed Foreign Travel

25X1

1. I have discussed both of these cases with DD/P [redacted] and in view of those conversations, plus what I know of your discussions with Frank Wisner, I would consider it inappropriate to press DD/P to permit contact of these individuals with covert CIA personnel in the areas called for.

2. Pending the completion of the general study on foreign travel, which I am making in cooperation with the other offices, I recommend that these requests for foreign travel be approved with the deletion of the arrangements for contact with CIA personnel. If you concur, attached is a memorandum for your initial [redacted]
